

Access Level 1 – Basic

What Can You Expect?

Access Level 1 was developed to ease you into Access and give you the foundational skills required to start designing and/or working with your own database.

What Is Required From You?

Learners should be computer literacy and comfortable in the Windows environment.

2 Day Course Content

Overview of Access

- What is a Database?
- Understand Database Structure

Getting Started

- Start Access
- Understand the Access Interface
- Open an Existing Database
- Manage Objects in the Navigation Pane
- Switch between Views
- Close a Database

Introduction to Tables

- External Data, Data Types and Properties
- Add Records in Datasheet View
- Enter Data Using a List
- Delete Data from a Field
- Delete a Record
- Add a New Table to an Existing Database
- Import or Link to Create a Table
- Add a Field by Entering Data
- Save, Close and Delete a Table

Modify Table Design

- Display a Table in Design View
- Change Data Types in Design View
- Set the Field Size Property
- Change the Format Property
- Move a Field in Design View
- Create a New Field in Design View
- Delete a Field in Design View

Unit Standard Alignment

SAQA ID: 1169336 **NQF Level:** 3

Credits: 3

US Title: Use a Graphical user interface (GUI)-based database application to work with simple databases

Sort Records on Text, Numbers or Dates

- Sort Records in Datasheet View
- Remove a Sort Order
- Save a Sort Order with a Table

Locate Records in a Database

- Browse through all Records
- Search for a Record
- Filter to Display Specific Records
